4

Sop

Bang in the middle there's an or-di - na-ry star we call The Sun

Alto

Bang in the middle there's an or-di - na-ry star we call The Sun

T/B

Bang in the middle there's an or-di - na-ry star we call The Sun

8

Sop

Over nine-ty - nineper - cent of the solar system's mass is in that one

Alto

Over nine-ty - nineper - cent of the solar system's mass is in that one

T/B

Over nine-ty - nineper - cent of the solar system's mass is in that one

12

Sop

Four in-ner planets or - bit re-la - tively close, Earth's third

Alto

Four in-ner planets or - bit re-la - tively close, Earth's third

T/B

Four in-ner planets or - bit re-la - tively close, Earth's third

17

Sop

Then comes a belt of rock - y as-te - roids so we've heard

Alto

Then comes a belt of rock - y as-te - roids so we've heard

T/B

Then comes a belt of rock - y as-te - roids - so we've heard

21

Sop Four ou-ter plan-ets, gas-sy gi-ants each en - cir-cled by a ring Then the

Alto Four ou-ter plan-ets, gas-sy gi-ants each en - cir-cled by a ring Then the

T/B Four ou-ter plan-ets, gas-sy gi-ants each en - cir-cled by a ring Then the

25

Sop Kui-per Belt of ob-jects main - ly made of ice is or - bi - ting

Alto Kui-per Belt of ob-jects main - ly made of ice is or - bi - ting

T/B Kui-per Belt of ob-jects main - ly made of ice is or - bi - ting

29

Sop Poor old Plu-to no longer is a pla-net As -tro - nomers got to - ge-ther and de -

Alto Poor old Plu-to no longer is a pla-net As -tro - nomers got to - ge-ther and de -

T/B Poor old Plu-to no longer is a pla-net As -tro - nomers got to - ge-ther and de -

32

Sop ci - ded to ban it It's a dwarf planet now, un - like be-fore Ce - res and E - ris are

Alto ci - ded to ban it It's a dwarf planet now, un - like be-fore Ce - res and E - ris are

T/B ci - ded to ban it It's a dwarf planet now, un - like be-fore Ce - res and E - ris are

36

Sop one - two more Way out be - yond in deep, deep space

Alto one - two more Way out be - yond in deep, deep space

T/B one - two more Way out be - yond in deep, deep space

39 3

Sop Tril-lions of o-ther bod-ies or - bit in that lone - ly race I'ts our so-lar sys-tem,

Alto Tril-lions of o-ther bod-ies or - bit in that lone - ly race I'ts our so-lar sys-tem,

T/B 3 Tril-lions of o-ther bod-ies or - bit in that lone - ly race I'ts our so-lar sys-tem,

42

Sop It's our so-lar sys-tem, it's our so-lar sys-tem, so - lar sys-tem home

Alto It's our so-lar sys-tem, it's our so-lar sys-tem, so - lar sys-tem home

T/B It's our so-lar sys-tem, it's our so-lar sys-tem, so - lar sys-tem home

45

Sop I'ts our so-lar sys-tem, It's our so-lar sys-tem, it's our so-lar sys-tem,

Alto I'ts our so-lar sys-tem, It's our so-lar sys-tem, it's our so-lar sys-tem,

T/B I'ts our so-lar sys-tem, It's our so-lar sys-tem, it's our so-lar sys-tem,

48

Sop so - lar sys - tem home

Alto so - lar sys - tem home

T/B so - lar sys - tem 3 home
